## LUTHERAN SCHOOL

*Excellence in Education Under the Gospel*

---

Good evening,

Although the official notification has not been received, Manitoba's Education Minister Kelvin Goertzen announced in a media conference that all classes will be suspended in the province, effective March 23 - April 13. "We believe that our schools are safe. However, the experience in other provinces and other parts of the world tells us that proactive measures lessen the impact of the spread of COVID-19." Goertzen stated in the media conference.

BLSL follows the lead and the decisions made by the Minister of Education. All teaching staff have prepared remote learning opportunities with online learning and are ready to implement as directed.

In the coming week we have student-led conferences scheduled and we will continue with that plan to celebrate student successes.

The BLSL childcare facilities will remain open and we will continue reviewing preventative measures that can be taken such as:

- regular and frequent hand washing
- cleaning and disinfecting frequently used surfaces
- limiting large group activities e.g. assemblies
- increased desk distance between students where possible
- encouraging sick individuals to remain at home

If there are changes, we will update our BLSL families.

Please visit the Manitoba Public Health Website at [www.gov.mb.ca/health/coronavirus/](http://www.gov.mb.ca/health/coronavirus/) for the most up to date information. For health questions or more information on respiratory illness, you can contact Health Links-Info Sante at 204-788-8200 or 1-888-315-9257.
