LUTHERAN SCHOOL

Excellence in Education Under the Gospel

Hello, I hope everyone had a great weekend.

If you would like to forward any photos you have taken of your child/children participating in an activity, please send them to childcare@bsls.ca or pictures@bsls.ca

RECYCLE CRAYONS

Think melting crayons is tricky? Think again! It's super easy, and safe to melt crayons in the oven. Making crayons from old crayons is a simple science activity illustrating reversible change and physical changes.

YOU WILL NEED:

- Silicon Mold
- Crayons

HOW TO MELT CRAYONS IN THE OVEN;

Adult supervision is highly recommended. The melted crayons will get very hot!

1. Preheat oven to 275 degrees.
2. Peel the paper off the crayons and cut into tiny pieces.
3. Fill each crayon mold with different colours, anything goes!

4. Place in the oven for 7-8 minutes or until crayons are completely melted.
5. Remove the mold carefully from the oven and let it cool completely.

6. Once cooled, pop out of molds and have fun colouring!

NOTE - You don't need silicon candy molds to make crayons. Simply spray the muffin tins first with cooking spray and use them the same way!

HAVE FUN!

Mrs. Natasha Slawik
Director of Childcare Services.
