*Excellence in Education Under the Gospel*

Snack ideas that children will love and all to do with bugs and insects.

### **Ants in the Sand**

This is a favorite bug theme snack among children. Place a few graham crackers in individual sandwich bags. Seal the bags. Have the children crush the crackers with their hands or a rolling pin. Open the bags and place a few chocolate sprinkles in each bag. Reseal the bags and let the kids use their hands to mix in the "ants". Let them eat with their hands or a spoon.

### **Worms in Dirt**

This bug theme snack is another favorite with children. Use individual desert dishes for each child. Mix a couple of gummy worms into chocolate pudding for each child. Top with crushed cookies or crushed chocolate pie crust. Add another gummy worm poking out of the "dirt".

### **Snack Caterpillar**

Spread 4 round crackers with cream cheese. Layer the crackers slightly to form the caterpillar body. Use two raisins for eyes and chow mein noodles for the legs. Build this bug theme snack idea over a lettuce leaf for added effect.
