If you would like to forward any photos you have taken of your child participating in an activity, please send them to childcare@bsls.ca or pictures@bsls.ca.

Please continue to engage in good social distancing protocols, including practising the 3P's, protect yourself, protect your loved ones, and protect your community. For more information visit www.manitoba.ca/covid19

OCEAN SLIME

WHAT YOU NEED:

- one 5oz bottle clear glue
- saline solution
- 1/4 teaspoon baking soda
- blue food colouring
- glitter
- small ocean animals
- glass jar

WHAT TO DO:

1. Start by adding glue to a medium size bowl.
2. Next, add a tiny bit of food coloring to your glue. Mix until the desired colour is achieved.
3. Then, add in as much glitter as you'd like and mix well.
4. Add baking soda to glue mixture and mix well.

5. Finally, add in several squirts of saline solution and mix well. You want the mixture to not be sticky. So, keep adding solution and keep mixing until it does not stick to your hands.
6. Knead well once it's not sticky.
7. Add in your plastic ocean animals right into the slime mixture or add to the top and mix in.

HAVE FUN

Mrs. Natasha Slawik
Director of Childcare Services.
