### **OCEAN WAVES IN A BOTTLE**

#### **YOU WILL NEED:**

- Mason jar or plastic water bottle
- Vegetable oil or baby oil
- Water
- Blue food colouring
- Funnel (optional)

#### **WHAT TO DO:**

1. Fill your container 1/2 way with water and add as much blue food colouring as desired.
2. Fill the rest of the container up with baby oil or vegetable oil. Try and fill the container as full as possible, reducing the amount of airspace that will be left after you screw on the lid or cap
3. To make a wave tilt and gently shake your ocean in a bottle! Watch the wave action in your sea.
