

Beautiful Savior

LUTHERAN SCHOOL

Excellence in Education Under the Gospel

Good morning,

Happy Mother's Day to our fantastic mom's! During these uncertain times, our moms are working so hard in even more ways; and keeping smiles on their faces while doing it. Thank you for all the work and support that you give your child(ren). They are learning so much from all you do. Continue to demonstrate your unconditional strength, love and support for your family. You are wonderful!

I saw this the other day and smiled... then cried :)

One who does the work of twenty - FREE

Have a wonderful Mother's Day!

I keep hoping that I will receive information that I can pass on to you to answer the many of the questions you have. I think I should have the info later today or first thing in the morning, but the answers are all still coming. The remote learning remains in place and will likely continue for the rest of the year. We are in the middle of planning events like our kindergarten grad and our grade 8 graduation ceremony. They will certainly look much different than other years, but we are hoping to make them as special as we can. We can guarantee that

they will be unique! As details develop and can be confirmed we will share. The challenge, as I am sure you are aware, is that the Public Health orders can change quickly and we do not know when orders will be lifted, etc. I can say that we think we have some unique and fun plans!

On a happy note, Mr. Badiuk (Mr. B) has a healthy baby girl. Brynley Charlotte Rose Badiuk was born on Thursday, May 7 at 11:50 am. She was 7.12 lbs and 21 1/4 inches long. Mom and baby (and dad) are doing well. Congrats Mr. B!!

Have a wonderful weekend and please continue to keep all of our BSLs families in your prayers.

Jenn McCrea
