

Beautiful Savior

LUTHERAN SCHOOL

Excellence in Education Under the Gospel

Good morning,

Cards are perfect to use to practice sorting. Children can sort them by suit, colour and numbers. Older children can group them by odds and evens or into multiples too.

PUT IN ORDER

Children can use cards to practice counting and ordering numbers correctly. Younger children can start with just a few to order at a time and older kids can time themselves to see how fast they can be a larger group into numerical order.

GO FISH

Go fish is the classic number identification game. Asking each other if they have a certain number is a great way to practice recognizing the different numbers and is a good game to help children get ready for kindergarten.

SNAP

On their turn, each player turns over the top card from their face-down pile. When someone turns over a card that matches a card already face-up on another player's pile, players race to be the first to call "Snap!" The player who calls "Snap!" first wins both piles and adds them to the bottom of their face-down pile.

Have fun!
