

# Beautiful Savior

## LUTHERAN SCHOOL

*Excellence in Education Under the Gospel*

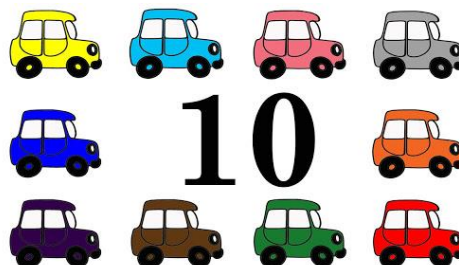

### Connect the Dots

Connect the dots is one of the most fun and fastest ways of helping toddlers understand how numbers are sequenced. Connect the dots is an interesting puzzle where children can connect dots which are numbered in ascending fashion (dot numbered 1 to 2, 2 to 3, and so on). Once completed, the dots create a picture which children can colour later.

### Counting Cars of Different Colours

A road-trip is incomplete without car games, be it I-spy or just singing songs. Make your road-trip with children fun and informative with a counting game. The objective of the game is to count the number of cars of a specific colour that you pass by.

Have a wonderful day!

Mrs. Natasha Slawik  
Director of Childcare Service
